New Product Release EMU TRACKER

Unique wheel with a pronged tyre that acts as a harrow and press wheel for parallelogram machines

EMU TRACKER

Limited Stock
FOR 2018!

Emu Tracker wheels have a unique design which addresses the issue of presswheel furrow smearing on parallelogram seeding modules. The three machines we have run these successfully on are the Morris Contour 2, Bourgault Paralink and Horsch Sprinter. Other makes may be adaptable. The Emu Tracker wheels replace the existing wheels on these modules. The flexible feet flick some of the loose soil back into the seeding row while giving some pressing effect. They are most effective in moist clay soil conditions.

EMU TRACKER

Pricing

Complete Wheel: \$195 + GST

Replacement Tyre: \$95 + GST
