Kwik Fit *For Bourgault Paralink & Morris Contour 2*

**NEW
PRODUCT!
FOR 2017**

Agmaster is excited to announce the release of our new Seeding Boot concept "Kwik Fit" for the Bourgault Paralink and Morris Contour 2. Choose from 3 different closing tool options for same mount!

Patent Applied For

Above: Kwik Fit Module Seeding System with 75mm Seeker Wing, Dry Fert Boot and Liquid Point. Note: Leg for attaching kit to machine is not pictured

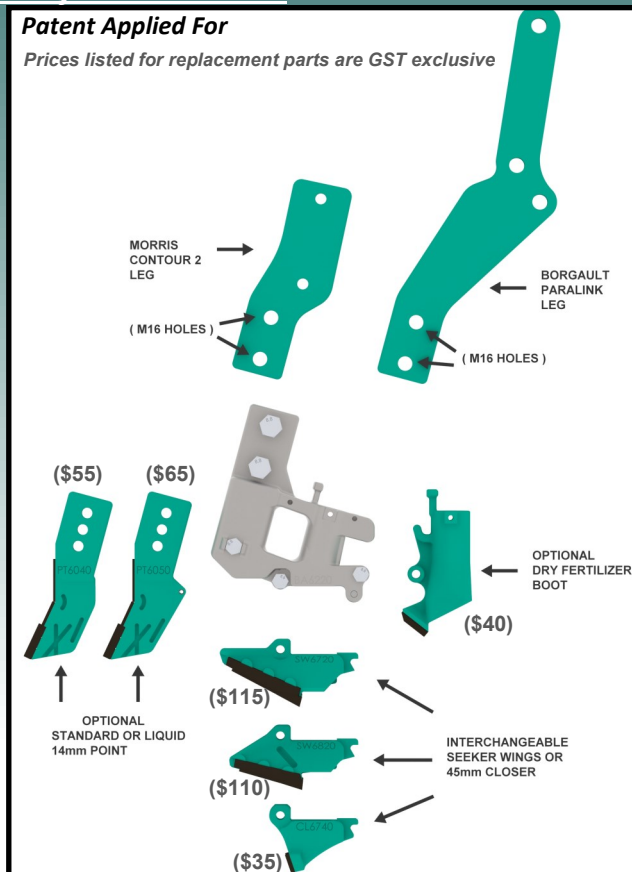

♦ Multiple closing tool options

Kwik Fit provides flexibility to easily change between Paired and Single Row with the option of three different closers for the same mount. There are now two Paired Row Seeker Wings to choose from; either standard 95mm wide wing or narrower 75mm wing for closer rows and less soil throw. A Single Row 45mm closer is also available

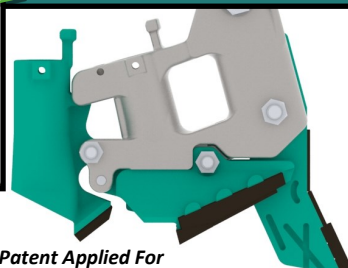

♦ Dry and Liquid Fertiliser Options

There is an optional dry fertilizer boot available for double shooting and provision for liquid down the point slot and/or with seed

♦ Height Adjustable Points
