# New Product Release MULTI BOOT

*Multiple closing tool and fertilizer options available for same boot mount. Suits all Double Bolt Flat-On C-Shank Tynes.*

# MULTI BOOT

## ◆ Multiple closing tool options

Multi Boot provides flexibility to easily change between Paired and Single Row with the option of three different closers for the same mount. There are two Paired Row Seeker Wings to choose from; either standard 95mm wide wing or narrower 75mm wing for closer rows and less soil throw. A Single Row 45mm closer is also available.

## ◆ Dry and Liquid Fertiliser Options

There is an optional dry fertiliser boot available for double shooting with the paired row wings and provision for liquid down the point slot and/or with seed.

## ◆ Compatible with our existing NT11 Point & Holder System

This system compliments our extensive range of Seeding Points and gives the farmer over 20 different seeding configuration options.

## ◆ One bracket/boot mount fits all

The same bracket fits all Double Bolt, Flat-On, C Shank tynes.

*Prices listed for replacement parts are GST exclusive*

# MULTI BOOT
